PANTHER BRANCH TOWNSHIP .-The candidates spoke in Panther Branch Township yesterday. A large crowd was present and a good feeling prevailed. Our friends claim a positive gain in this Township over the vote of last year, every Demoocrat being fully prepared to do his duty to-morrow.

THE WEST.-Gen. Wm. R. Cox. Chairman of the Democratic State Executive Committee, who has been other adjoining counties, returned to this city yesterday morning. He represents the Western counties as all right, whatever disaffection that had existed having been dissipated. The West sends greeting to the East, and promises to come gallantly to her rescue to-morrow.

We call the attention of our readers to the advertisement of our townsman, Mr. Wm. H. Vaughan, can be obtained at my store on Wilming-Piano Tuner. He has taken up this business ever since the war ended because of being disabled so he could not work at his regular trade. Every and he is certainly recommended by the very best of men. We hope that our citizens will give him their orders as he proposes to do the work so cheap and well.

> HAS EVERY MAN REGISTERED?-Has every Democrat in the Raleigh Township registered? The Rads have moved heaven and earth to bring out their full force, have duplicated their dead list by living substitutes, and have resorted to every artful dodge known to that party to defraud the people of an honest expression of their wishes, and it remains for every Democrat opposing negro supremacy to see that his name is registered and to-morrow to poll his vote.

GOV. BROGDEN AND THE WESTERN N. C. RAILROAD.-Gov. Brogden has been absent for the past week at Asheville, looking after the Western N. C. Railroad in the name of the State. On Monday and yesterday he was at Greensboro effecting the final arrangements for the State to take control of that road under the recent purchase. We learn semiofficially that everything has been arranged satisfactorily, and that the new Board of Commissioners, under the Legislative enactment, will be appointed this week by his Excellency, when the road will be formally

THE END DRAWETH NIGH.-Tomorrow the battle throughout the State will be waged with much warmth, in the contest to finally overthrow Radicalism in our midst and to give the honest people of the State that full control of her affairs which is so absolutely necessary for the good of the whole people. We have every confidence in the general success; the Democrats will undoubtedly have control of that Convention which has been called to remodel that abominable institution which was forced upon the people in 1868 at the point of the Canby bayonets. and North Carolina will to-morrow be placed in safe moorings and forever under the control of those who have at heart only her real welfare. And yet not a single effort should be spared in our immediate midst to elect the intelligent and honest gentlemen who have been nominated by the Democrats of Wake. Messrs. Gales, Battle, Holland and Jones are gentlemen in whom all can trust, their integrity is beyond reproach, and they would do honor to Wake

Let every man in Wake county feel his individual responsibility tomorrow, be certain that he votes and that his neighbor votes also. Let us give these gentlemen a rousing majority over those who advocate negro supremacy, social equality, and all the damnable issues of that party which seeks only the ruin of the own political advancement.

THE CROPS IN GRANVILLE,-The Oxford Tor chlight says:

"For several days during the week we have been traveling around Granville, with the Convention candidates, soliciting subscribers to this paper. In the Dutchville, Tally Ho, and Kuapp of Reeds sections we notice that the corn crop is splendid and the tobacco crop is looking finely, though the hail storm has visited them in some places doing a vast nount of damage."

HE, Too, HAS IT .- The Local of the Oxford Leader evidently has been looking on the flowery side of Cupid's harbor. Hear him:

"Like the fall of Autum leaves our young men and maidens are leaving their single estates one by one. Cupic has linked the lives and fortunes for a great many of our young people, and we understand he is not near done vet. All we've got to say is. when the little "match-maker" binds you with his fetters of love you are a goner."

A CONSERVATIVE MASS MEETING. There will be a grand Conservative mass meeting at Metropolitan Hall to-night, which will be addressed by our gallant candidates and others. It is more than possible that Senator M. W. Ransom will be present, which fact will be known this morning and made known to the public.

Let every one turn out and let our candidates have that encouragement which will carry them to victory tomorrow.

The Citizens Cornet Band will be on hand to enlighten the occasion. Let the people of every portion of the city attend and be informed as to the importance of the movement upon which we are called upon to vote to-morrow.

THE CAUSE OF THE DIFFICULTY. -The following is the extract in the Tarboro Southerner of Friday last with Gov. Vance in Cherokee and which occasioned the difficulty between its Editor, Mr. Williamson, and McCabe, the Radical carpet-bag candidate for Convention: "White men of Edgecombe, hold

yourselves in readiness. The negro rule that has been so long inflicted upon you will soon be wiped away. The party is disintegrating. Stand in solid phalanx. You will yet be victorious, and virtue and intelligence will yet control the civil affairs of the county. It is your sacred duty to vote man to man for Convention and the delegates your party has placed in nomination. Vote for them and enter your solemn protest against ignorance and rasclity. Down with negro social equality. Despise the men that belong to the party of Civil one who knows the gentleman know | Rights. > MURDER IN ABERDEEN, MISS., OF A YOUNG MAN LARGELY CONNEC TED IN NORTH CAROLINA .- The Aberdeen Examiner of Wednesday last records the fact of the foul murder of Capt. Wm. de B. Hooper, s young and talented lawyer of that city and the law partner of Gen. Samuel Gholson. Capt. Hooper was the son of the late Johnson Hooper, of Montgomery, Ala., one of the best known writers and humorists of our sister State, who was formerly a North Carolinian, the author of "Simon Sugg," and who has at present many connections in this State. The Examiner of last Wednesday thus describes the cruel deed :

> Capt. Wm. de B. Hooper was enering the door of the Court-house. Tuesday morning and just as he was bout to ascend the steps leading to the Court room where the Chancery Court was in session, he was sudden ly addressed by a young man by the name of Bradley Jones, son of the late Nelson B. Jones, and turning half around to respond, was shot dead in his tracks. No other cause can be assigned for the foul assassi nation than that ill-feeling had for some time existed between the par ties in reference to an estate matte that was about to come on for trial. The affair created the most intense xcitement in the city, and there can be but little doubt that the formal ities of a trial would have been dispensed with, had not the murderer been consigned to the jail before the

> rowd commenced to assemble. One of the noblest, bravest heart that ever love inspired, or chivalrie feeling stirred to manly deeds, has ceased its throbbing; one of the truest friends and most generous foes that ever trod the earth, has passed fo:ever from among those who cherished and loved him. A child in sim-plicity; a maiden in tenderness; a patriot by instinct and nature; a sage it wisdom, he was a man among men loved him best believed that a glori ous future, in the language of man. awaited him. Cut off in the noonday of health and activity, and while life was full of happiness and promise, without a moment's warning and without even the meagre satis faction of a parting word or a parting blessing, he has gone to his last home, leaving an image in a thous and sorrowful hearts that time can not efface.

Capt. Hooper leaves a broken-hearted wife, a widowed mother, a broth er and two little children to mourn him with that deathless grief that balks all efforts at assuaging; and in every portion of our country, friends bound to him by such ties as seldom unite man to man without a conmon paternity, will weep for him as for a brother gone down to the cold and silent grave. Peace to your ashes Will Hooper! God be with you in the realm beyond the trackless stars, and give to those who lived in your great, big, generous, loving heart, that calm that falls like an angel's mantle when the fountains of the soul have exhausted their flow, and those steeped in affliction have escaped the horrors of madness. We loved you as we have seldom loved man, and we white people of the State for their will not soon cease to miss you and

Mr. C. M. Busbee of this city addressed a letter to the Hon. D. G. Fowle, in consequence of certain repoots reflecting upon his zeal as a party man in the present important crisis, and also because of the active use made by the radical party of a previous expression of opinion hostile to the call of a Convention. With regard to the latter subject, the radical party has industriously used every name to give sanction to their attitude. Judge Fowle incurs no odium among his friends for the position he took before the call of the Convention. With him, in its inception it was a question of policy and prudence. He coincided in opinion with many gentlemen, now earnest in their advocacy of the

C. M. Busbee Esq: Dear Sir:-Yours has been received, and in reply I will call your at-tention to my letter, in which I state that the defeat of the Democratic party would be a public calamity-I think now as I did then. The defeat of the Democratic nominees for the Convention in North Carolina and the control of that body by the Republican party would in my opinion be the greatest misfortune which can happen to the State. I expected to be with you on Monday and accompany you to New Light, if I could do any good there but my wife is quite sick again, and I fear I will not reach Raleigh except just in time to vote.

You can use this letter as you

A PRETTY COTTAGE.-Under this heading the last issue of the State Agricultural Journal thus speaks of one of the many improvements now going up in our midst:

A cottage is the most picturesque of all wooden dwellings. Pretty and bold in outline, especially in its pro-jecting roof, which is peculiarly suited to our seasons, hot and cold, rain and snow. Who is it that could and snow. not look, and look, and look again on one with pleasure. Let them rise, we say, from every vacant lot of proper dimensions in Raleigh, or sweep away the old square houses, or even houses recently constructed, with rable to the street, like a fashionable village store, and then painted white. o make the imitation perfect. However, these can be changed by additions and ornaments. But we have now in view Dr. William Little's dwelling, shooting up almost in a day, on Newbern Avenue, not far from the east gate of Capital Square,

in beautiful proportions. The design was made by Mrs. Dr. Little. From turret to foundation stone she has directed her plans, car ried out, and for convenience and picturesqueness, the house will make model that it would be difficult to surpass. The brackets we observe are missing, but the moldings were delicately made, suppply the place, and we think is sufficiently hold to loo ; unusually well. Mrs. Little, properly, in designing the dwelling kept in view the size and location of the lot on which it was to be located: and right here she has exhibited taste. udgment and skill, that persons orlinarily in building in our State, or

even architects, seem not to possess. The house is suited to the he lot to the house. The internal arrangement is also good. The main nail is as wide, as it should be, and the stories are sufficiently high to make handsome and siry rooms, both below and above. The stairs land near the back door, thus making them private as well as convenient, and is an excellent arrangement. A screen in the hall, as we learn is the intention, with the stairs constructed as we have observed, would make a pleasant and roomy place in summer, which, no loubt, would be constantly occupied by the family. The kitchen is one story and connects with the dining. room and will be fitted up with all the modern improvements for fine and convenient cooking of this, too, belongs to Mrs. L., as the Dr's in difference on this point is proverbial. He simply goes to a feast to gratify his friends.

Two bay windows are on either side of the front parlors—the south one will, we understend, be used for a hamber-add beauty to the rooms as well as to the exterior of the house. Back of this chamber will be the nursery, and around it are bath-rooms and closets. The chambers on the second floor are also admirably arranged with dressing closets, &c.

The plazza, in front of the house finely proportioned, having ample width, which is often now overooked, and extending its full length the molding connecting with the bay windows, thereby adding much the appearance of both, by breaking what would have otherwise been straight line. In the rear, the piazza extends to the end of the kitchen, forming an L with the bath room and putt'n ; all the back doors under

Altogether we look upon this as complete, neat and very pretty struc-ture—an ornament to Raleigh.

This part of the city, in fact every part of it, is still improving with surprising rapidity. Directly opposite Dr. Little's cottage, Mr. William Primrose has one with its neat grounds circles and squares that reembles a pretty picture. It has relaced an old shop in the last twelve months.

BRIBERY .- The Executive Committee has information that the Radcals are using money to buy votes. We hope there is no white man in Wake county, says the Sentinel, mean enough to sell out his principles, and bind himself over to the service of the negro party, for the little money that the Radicals can pay him or for any amount of greenbacks.

WAYNE ALL RIGHT.-The Goldsboro Messenger, replying to a question of the Wilmington Star, says:

We think we can assure our Wilmington neighbor that old Wayne will prove herself true to the white man's party, and that Dortch and Cox will be elected by a handsome majority. The color lines have been fairly drawn by the Radicals themhe must vote the Radical ticket, and accepting the challenge the white men must likewise become a unit.

A VIRGINIA VOICE.-We copy with pleasure the following hope expressed by the Petersburg Index as to the results of the election in this State to-morrow, and promise to send our neighbors good news to-morrow night. Says the Index :

The critical day of the Convention election is rapidly drawing near in the State of North Carolina. We sincerely trust that the confident exentertain will be amply answered by the results of the election. We do not forget, however, that the Radicals are desperately bent on winning a victory in the Old North State, and that they already have one inspiring precedent in the defeat of one call from a State Constitutional Convention. It is earnestly apparent that they are prepared to employ any means, however desperate and up-principled in order to baffle the pur-pose of the Reform party.

Shortly after Garabaldi made publie his recent project for diverting the course of the Tiber at Rome, Dr. Barzilai sent a letter to the General copied from the works of Jean Bat iste de Boyer (Jewish letters, 1742) from which it appears that at the beginning of the eighteenth century the Jews applied to the Pope for permission to search the bottom of the Tiber, and for that purpose turn the course of the river a mile above and below Rome for six months. They offered to pay the Pope twenty millions lire for the permission. The Jews believed they would find ten times as much as their outlay. Their offer was not accepted, as it was feared that the drainage of the river in the summer months, during which the work would be done, would produce epidemics.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only one dollar per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. Always Cush. SEE or s every man is brought to

the polls, itnd see that every man is registered. Chairmen of Executive Committees, everything depends upon your zeal and vigilance.

KEEP at work! The heat is up pile on the fuel! Don't let steam go dowr till you run safely into

WE suppose R. C. Badger is showing up what aristocracy is, and Madison Hodge is showing off what it is not.

THE Republican Executive Committee daily issues from two to four thousand copies of the Constitution. They are flooding the State. Democrats, look out and work.

Lar the people never forget the days from '68 to '70, when they were saddled with the Radical party. If they can forget, they deserve the fate that awaits the return of Radical rule.

REMEMBER all the amendments proposed by the State Constitution will be submitted to the people for ratification or rejection. If the alterations proposed to the Constitution are not acceptable, they will be rejected.

Wonder how R. C. Badger's aristocracy dodge takes among the shrewd and honest farmers? Wonder how many Dick has convinced that he himself is not an aristocrat according to his own definiton ?

Hope and courage will ensure us the victory. But every man must do his part to secure it. Don't depend on others. There will not be enough at the polls without you. Go to the polls yourself and acquit your con science and spare yourself the shame of defeat through your own neglect.

Which shall the people followthe native born whites of North Carolina who believe that a reform of the organic law of the State essential to the welfare and prosperity of the people, or the office-holder, the carpet-bagger and the negro who tell you that the Constitution of 1868 is all-sufficient.

PEOPLE of Wake! the eyes of the State are upon you! The white men of the State have put in your hands the banner of your party. Don't let it go down in shame in the smoke and din of the battle. When the shock is passed let it be seen proudly erect gilded with the sun of victory. MAOO HTHEW sloden

LET the Democrats prove their faith by their works. They know what the Radical party is, and they know how loathsome it is in its practices and its principles. No Democrat will vote for it. But as much mischief can be done by staying at home as by voting with the enemy.

Don't fail to vote Thursday.

The white people were disfranchised in 1868, to the extent of excluding 20,000 of them from the polls. And 80,000 negroes were enfranchised to give them a voice in what they knew nothing about. And the votes were sent to a military commander in Charleston; and he pronounced it good, and so you got your present Constitution.

To THE people of Wake not see lifference, between the county d with debt, honor and credit se, the fruits of Radical maand the present, when credit red and its honor retrieved. ults of last years victory? y forget the past, and unthe present.

FULL STRENGTH FOR YOUR TO NOMINEES!

Give Radicalism its quietus on Thursday. Let the Federal officeholders know that their occupation in North Carolina is gone. And let the domestic office-holders know that they can no longer control the white reople of North Carolina to shape the ends of a corrupt party.

THE yellow fever at the Barrancas which is nine miles below Pensacola. does not seem to have reached the city. Pensacola has been scourged for two or three years previous to this, and it is hoped it may be spared, though the enemy is so close to her doors.

Kerr John Page and his assertion before your eyes. John Page "spoke out in meeting," and meant exactly what he said, and believed then that he would get what he wanted.

Do the whites want to give Page the pleasure of "breaking down all distinction between white and black in everything?"

THE population of the city of New York does not appear to have increased as was expected, only reaching 1,050,000. But that of the cities surrounding it, and which are practically the city of New York, will reach over two million, nearly double the population of North Carolina, concentrated upon an area not as large as township in Wake county.

WITHOUT exception all the intelligent, well informed and patriotic whites of North Carolina call for a new Constitution. Without exception all the government office-holders, all the negroes, and most of the State officers oppose the call. But Judge Rodman and Judge Cantwell, and Lehman and Candler and some few other leading Republicans agree with the Democrats.

ENCOURAGEMENT.

To such of our readers as this issue may reach before the day of election, we say be of good cheer, and work with the assurance that victory is before you. We are well aware that three weeks ago there appeared to have been a general indifference to results. But the activity of the Republicans has brought about its consequences. Our side has been stimulated to work also, and the fruis are before us. With the exception of a few counties, the whole State is aroused. The whole West is awake and so far from losing, the Democrats will gain in counties hitherto against them.

It is no extravagant claim to expect a majority of twenty-five at the least, and it will by no means surprise us to see the majority of the last House of Representatives maintained in the Convention. But let our readers all remember that everything depends upon individual action. Each man must go to the polls himself, not depending upon others to do the work for him.

Browstow bit the nail on the head when he said the white man had no rights the negro was bound to respect. This is the touchstone of negro character. They demand everything. They concede nothing. If you would gain them, you must go down to them. If you would conciliate them, you must yield every thing to them. If they are in power they are insolent, exacting, overbearing. If they are out of power, they are discontented, eternally complain-

And by their conceit, insolence and ignorance, they have drawn the color line. Will any white man step across it, knowing he is degrading himself by this concession to what is so patently inferior?

But any white man who votes the Radical ticket does so. The very large number of negroes who vote all one way, and the small number of white men who vote with them, makes that party essentially the party of the colored man, as opposed to the party of the white man.

White men, stand to your colors!

JUDGE BUXTON says upon his honor, as a gentleman and a Christian, he believes the present Constitution of North Carolina the best we ever had, and if elected, he will return it to the public untouched!

Is the Judge a better judge than Judge Rodman and Judge Pearson, and other luminaries of his party who do not recognize the conspicuous merit of the Constitution? Judge Rodman, if he gets to the Convention, will tear the Constitution to tatters. He has had ample experience on the Bench of its absurdity, and would correct them at the same time he is serving some party and individual purposes.

If Judge Buxton returns the Constitution to the people untouched, it is because he will have secured a life tenure in his Judicial office, or obtained some other reward for his Judicial blindness.

THE DAY BEFORE THE BAT-

Bur a single day stands between victory or defeat, between the final redemption of North Carolina from the rule of Radicalism, or its irrevocable enslavement to a domination as disgraceful as it is hurtful. It is a position which should have the solemn consideration of thinking men, and should animate every man to shake off whatever of apathy, indifference, or personal consideration that may have controlled his action.

The danger has not been exaggerated. The effects of the restorntion of Radical power have not been overstated, and the white people of the State have been standing on the edge of a peril, made more immipest by their disregard to warning.

We believe, however, that they at length comprehend the issue, and that they are determined to avert what had so nearly overwhelmed them. The Republican party has worked with energy and with desperation. They are fighting in the last ditch. And if they win, then beware. They have not only the exultations of victory to express; they have mortifications to appease, they have recontments to gratify, they have revenges to satisfy, they have rapacity to gorge, and they have behind them, pressing on with inexorable force and insatiate demand, that mass of ignorant voters, now conscious of their consequence to their party, and clamorous in their demands, not only for recognition but for prominent rewards. The radical party, if it succeeds, is compelled to act under influences most deterimental to the white race, and absolutely ruinous to the best interests of the State. We now apprehend no such results. But we do not wish to leave any thing to chance. Every man must rote. Each one must feel that upon him rests the glory of victory or the responsibility of defeat.

FLOODS IN THE WEST. We are pained to learn of the heavy and very destructive floods all through the West. Coming at the close of the barvest, and before the crops had been secured, they may be regarded as one of the most terrible calamities that has ever befallen the country. We are apt to look upon the misfortunes of our neighbors with calm philosophy, and to regard the ruin of distant regions with absolute indifference. But besides the recollection that the common tie humanity binds us in sympath with all our race, there is a material consideration which makes this flood of national importance. The region flooded is the granary of the nation, and the loss of its crops wi'l have a most immediate learing upon national prosperity. The surplus of the West was looked upon to meet the deficiencies, of Europe and in doing that, to revive the drooping

prosperity of the United States. Possibly the States that have escaped injury and whose crops are good, may profit by a rise in prices, but this a local gain, while the injury to the West is a national loss to be shared eventually by the whole

The Manner of Andrew Johnson's

Death. A special to Nashville papers from Greeneville, dated 7 o'clock Saturday night, says: Mr Johnson died of paralysis and heart disease. He has been complaining somewhat of ill health during the past month, but felt no serious apprehensions. Last Wednesday he took the morningtrain to visit his daughter, with Mrs. Johnson had ben sojourning for the past six weeks. He rode in a hack from Carter's depot to her res idence, some miles distant, and seemed in good spirits on his arrival, and ate a bearty dinner; and after a few minutes of general conversation re tired up stairs and conversed with his grand-daughter, Miss Lillie Sto-While thus engaged his tongue refused utterance, and to her great consternation he fell from his seat to the floor. Help was instantly summoned, and almost as soon as raised he expressed, indistinctly, however that his right side was pa alyzed. After being taken to a bed when the family spoke of sending for a physician he forbade it, saying that would soon recover. On this account the summoning of medical aid was deferred twenty-four hours, when Dr. Jobe was called from Eliz abethtown, two miles distant. He instantly began heroic treatment aided by Dr. Cameron, and seemed at one time, the next day, to be succeeding! The patient conversed im his approaching dissolution; but hi he became unconscious.

perfectly in regard to domestic matrs, and did not seem conscious of case was beyond the skill of physicians, and at 7 o'clock Friday night Mrs. Patterson and Andrew John son Jr., arrived an hour later with two physicians from Greenville, D.s. Brey and Taylor, but he did not recognize any of them, and after seven he peacefully breathed his last; su rounded by his wife, children and grandchildren, except the son and daughter of ex-Senator Patterson. The body will be brought to Nashville and be buried with Masonic honors, on Tuesday. Knoxville has requested the honor of burying the illustrious dead, but his family are unwilling that his remains should be removed from his home to any place, unless possibly to the capita of the State he so long and faithfully served. Extensive preparations are accordingly being made by various civic and militiary organizations to attend the funeral here, where they

will be joined by citizens of this and

neighboring counties.

The Rochefort-de Cassagnac Affair. The Lond in Times reports that Henri Rochefort, on the loth Instant, sent a letter to Paul de Cassagnac. calling on him to come to Geneva immediately with his seconds. The cause of the challenge was certain articles which appeared in Le Pays in 1872. Cassagnae replied with an excessively abusive letter, giving Rochefort the choice of weapons, and appointing Prince Alexandre de Wagram and Count Harrison his seconds. Ms. Peria and Ordinaire, having consented to act as Rochefort's seconds, have met those of M.

de Cassagnae in Paris to arrange the terms of the duel. They claim that as their principal is the insulted party he has not only the choice of weapons but the right to determine distance. They then demanded that the men should meet with pistols at a distance of five paces and shoot at the word of command. M. de Cassagnac's seconds said this was simply murder, for when the arms of the combatants were extended the muzzles of their weapons would almost touch. M. Rochefort's representatives refused to admit these objections. They said their principal, considering the importance of the case, bad been very particular about the conditions. The friends of M. de Cassegnae then proposed that the distance be thirty paces, each combatant to be allowed to advance five steps after the word is given, the time of firing to be optional and the shooting to continue until one of the parties falls. M. Rochefort's seconds eclined this proposition and the matter rests there. The London News has a dispatch stating that a minute has been drawn up and signed by the seconds of both parties de-

claring it impossible to settle the conditions of the duel. FATAL RESULT OF THE FRAWNER -KENNARD SHOOTING AFFAIR.-Washington, July 30.-On Tuesday light last John Frawner, of this city shot Thomas Kennard, a clerk of the War Department, whom Frawner charged with estranging his wife from him. The wound was at first thought to be trivial, but to-night Kennard died from its effects. Frawner who had left this city after the shooting, was arrested this morning in Fairfax county Va. Frawner and his wife had not been living together for several weeks.

---Australia shows an increase during seven years of 11,000,000 sheep and 2,000,000 head of cattle, without counting home consumption and the quantity of meat imported in tius, In New Zealand during the same period, the increase in the number of sheep and cattle was equally remarkable, the former mutiplying from 8,418,579 to 11,694,863, and the later 412,830 to 494,113.

A grand daughter of Ethan Alien, aged nearly one hundred and one years, was visiting Springfield, Mass., a few days ago. Her name is Mrs. Jemima Graves. She is said to retain her faculties to a wonderful degree, and remembers her illustrious grandfather distinctly enough to describe his personal appearance, halits and dress in detail.

METHODS OF CHANGE.

Of the two methods prescribe d for changing the Constitution, that by legislative enactment is expensive, uncertain and dangerous; the several amendments recen ly submitted to and ratified by the people was declared in their passage, and even after the wift of the people was declared in their favor by over 40,000 majority, acrious apprehensions were entertained as to whether they were preperly adopted; again, legislators when possessed of qualifications for such duties, and cannot bring that attention to each provision presented for consideration, without meeting such criticisms as may imperil their labors.

The Convention method is speedy and conomical, the body is composed only of the same number of members as comprise the House of Representatives, and their minds are directed ainner to constitutional reforms and their work may be completed and ratified, if necessary, in six a conths. As to expenses that may be incurred, it is believed they will be more than defrayed in a short time by the reforms that will be inaugurated.

The restrictions imposed by the Legislaier-Journal. of an elephant which Regent's Park, Lontwelve pounds, though whing it never wrote a

in a short time by the reforms that will be inaugurated.

The restrictions imposed by the Legislature, fully and amply secure the Homestead, wechanics Lien, Rights of married women, and Personal Liberty, and should quiet the lears of the most timid, for they are recognized as of binding efficacy and are colefly enjoyed by the friends of Constitutional Reform. Indeed they were incorporated in the bill mainly to remove partizan clamor, and anticipate scrupulous agitation. QUALIFICATIONS OF DELEGATES.

It is useless, however, to seek to quiet the mere caviller; the keen opties of some persons day at law. The mere fact that the honor of the best men in the State is piedged to their preservation, should satisfy every reasonable voter. This Convention is called in pursuance of law, and each delegate before "he shall be permitted to sit to be entitled to a seat in said Convention of act as a delegate thereto," shall swear to observe these "jestrictions" (see acts 1874-5.) Should a part comply and purt refuse to take this oath, only those who obey the law are members of the body, nor are we without precedents; similar oath was required of the members of the "restricted Convention" of 18-5, the same question was raised, and after debate all the members look the oath and observed the restrictions, and that in a time of high part" exc tement. ADDRESS OF THE EXECUTIVE DEMOCRATIC CENTRAL COM. MITTEE TO THE PEOPLE OF NORTH CAROLINA.

ROOMS OF THE DEMOCRATIC CON- ) SERVATIVE CENT'L EX. COM, RALEIGH, June 1st. '75. To the People of North Carolina:

The General Assembly at its recent session called a Convention of the people to meet at Raleigh on the 6th day of September next, for the purpose of suggesting steadierations in our organic law as may be deemed wise and expedient. NICE SELLY FOR CHANGE

The recessity for changing many of the provisions of the existing tensitution is enerally admitted, and is too apparent to our extended argument. It is true that generally admitted, and is to apparent to a quire extended argument. It is true that some of our prominent men at one time opposed the call of a tonvention; but their action was based on prudential consideration, and not on an indisposition to have the Construction thoroughly revised. They teared that our parpose in seeking to referre our Fundamental Law, might be misconstrued by the violent and illi-formed men then controlling Congress, and the peace of the State jeopardized by some harsh and unconstitutional action on the part of the United States authorities. That icar no longer exists. We now have every assurance that the Constitution of the United States will be observed by the officers of the Government, and feel a satisfactaction in a shouncing to you that the time has at lost arrived when the official at Washington City concede that the people of North Carolina have the same right to manage their local concerts which the citizens of other States enjoy. We can proceed without appreciencion to perfect our Constitution and remodel it in the interests of our jeople. THE CONSTITUTION, THE CREATURE OF MIL-

ITARY LAW. This Constitution, the creature of Military dictation, was born in the throes of a Military reconstruction. Its authors were mainly Sciolists and adventurers who had mainly Sciolists and adventurers who had lived among us without preferment, or possessed of qualifications entitling them to it; others were our recent slaves, who had known no law save the will of their masters, and others satil were carpet baggers, both black and white-atten in feeling and R. Scientin Education—who sought positions here that were denied them where known—to despoil and humiliate us. And when their work was submitted to the people at the potis, thousands of our best citizens were deprived of the right of voting upon it, and over eighty thousand ignorant negroes were given the ballot to secure its adoption. It is no exaggeration to say that not one person in ten who voted for it could read the instrument, and not one in fifty had read if or was even moderately familiar with its provisions, and many gave it their support helieving it would be merely temporary, and to escape further agistion and revolution. It is matural therefore that a Consitution thus formed and endested should be gotted should be gotted should be gotted should be gotted and endested should be gotted should be g

therefore that a Constitution thus formed and adopted should be found unsuited to our condition, and that we should embrace the earliest opportunity consistent with reason and prudence to secure such reason and prudence to secure such changes as time and experience have shown to be necessary. Our organic law should be expressed in language clear, simple and perspicuous, so that nothing may be left to inference or construction. spicious, so that nonling may be let to inference or construction; our lights, so precisely defined as to be comprehended by all men of ordinary intelligence; and each department of the government should be so restricted, that while left tree to discharge its appropriate duties it cannot by unwarranted encroachments embarrass the proper action of others.

the proper action of others.

THE CONSTITUTION UNSUITED TO OUR CONDITION.

That the Constitution contains some good provisions no one denies; it would be singular if it d.d not, but its abominable characteristics were so manifest that not a single Conservative member of the Convention that passed it could be induced to affix his signature to it, as a fit instrument to be submitted to the people. Indeed its provisions are so toosely worded and so badly arranged as to constitute but \* medley of inconsistencies that defles the successful construction of the courts; in fact, to reconcile the difficult es arising from its pracconclethedifficult essarising from its prac-tic I workings, the court has in some in-stances been driven to supply omissions, and in others to introduce a new principle h therto unknown in the judicial history of our State, distinguished as "judicial leg-islation," an imposation anti-republicar in character and invasive of the rights and in character and invasive of the rights and duties of a sep trate department. Its travit ions are so obscure that within the brief space of its existence many more decisions of constitutional questions have been ocmanded than in the entire previous history of the State—and of late we have witnessed the extra-rdinary spectage of two sets of judges in both the second and claim Judicial Districts, contending for the same position, one of which of lating to hold by an appointment from the Governor for a period of ten years, an office that the Constitution seems to say is to be fixed by the people at the polis, and whose term is expressed to be only eight years.

pre-sed to be only eight years.
In many counties, there is a practical deniat of justice the counts are inadequate to the public demands, and thus they are driven to resort to special terms, which are expensive and unsa inactory, and persons accused of criminal offenses are often confined for months without trial. We need a specific justice and a less expensive initifined for months without trial. We need a speedler justice and a less expensive judiciary system. We should abolish every use essoffice, which is now filted by a mere constance; for only by a rigid and prudent economy in our public as well as private affairs, can we hope to re-tore the S ate to prosperity. It is believed that the laws will be more impartially administered by a return to the old practice of a rotation of the Judice.

AID FROM REPUBLICANS.

In our last election it was gradifying to see Republicans who had hithert submitted to the control of unscruptuous tenders under a mistaken belief that the were promoting the general we fare, seeing their corruptness as demonstrated by the "Credit Mobilier revelations," "suborn tontracts" and other trait, and defalcations, and their vindictive and relentless polley, whereby they sought to degrade the superior race by this inlightens, "tivit Rights Bill," overcome their party prejudice and give us their cordial support. To them we extend an invitation to remain and continue the works of any another the ceins on of their leaders, who assured them this bill would never pass Congress and if it did

The battle for civil liberty is not yet over. "Civil Rights' is still a part of the scretcarpet bug programme for this State; though riven from the halls of Congress, it will be renewed in the Southern States. We therefore invite their cooperation. The Convention owes its final success to the support of some of their ablest representatives in the General Assembly and they are doubtiess aware that the wise provisions introduced into the Convention of 188, by their ablest native representatives were sconted and defeated by that same element that has trought rule upon their party and confusion to our State. moved from the heat, noise and bustle he Public -quare, makes it the most desir-ble house for the invalid, and equally so sage of The Abouin Bl. NECESSITY OF ORGANIZATION.

The friends of Convention should at ones perfect their organization and bring out their best men in every county in the State. The leaders of the Republican party know that by their recaless violations of the constitution and efforts to entral zeall power in the hands of the Federal Government, they have justly fortelted the confidence and support of the people; they therefore trust not to their own strength but to our apathy, and will endeavor to secure our deteat by divisions and false leaders. We therefore respectfully invite their attention to the following resolution adouted and successfully followed in our last campaign:

Resolved That we expressly recommend to the members of the Democratic Conservative party to discourage independent candidates and all other disorganizes, that all support be promptly will drawn from every asplicant for office who shall oppose the regular nominers of our Conventions be duly advertised and see that the people have a full opportunity of attending and expressing their wishes. The Eastern end of the bridge of the Bath-house Mansion at Long Branch has been swept away. The railroad bridge is flooded.

A London telegram from Oldham, England, announces the strike almost universal. 18,000 operatives are idle and the feeling against the employees very bitter.

A St. Louis dispatch says that Avery, one of the government offi-cials and Revenue stealers, pleads not guilty to three of the indictments against him. He had not

given bond up to yesterday. William Gilmore Sims, the dis-tinguished Southern novelist, who is buried in Magnolia Cemetery, Charleston, South Carolina, is to have a monument. The committee having the matter in charge has decided to adopt the suggestion of a bronze bust on a granite pedestal, similar to that erected in Central Park to Humboldt. Messrs. Duncan, Sherman & Co. expanded their credits, and collapsed; the Commercial Warehouse pany expanded its credits, and col-lapsed; Jay Cooke & Co. expanded ed; Jay Cooke & Co. expanded their credits, a couple of years ago, and collapsed, and great was the general collapse which followed; and there never was general expansion not followed by general and disastrous collapses. And still the world will have to wag on a thousand years or so more, we suppose, before our financial nincompoops will heed the lesson of universal experience.

The cotton planters in all the cot-States are almost invariably a debtor class. In most cases they are largely in debt, and it is a very rare thing to find a planter who is not embarrassed in his operations. They commenced at the close of the war the herculean task of converting 4.000,000 freed slaves into free labor. ers and citizens. They have worked harder than any class of our people, and theirs has been the most harassing of all the industrial pursuits .-The task was too great in the face of Radical reconstuction, and they have never been able to repay the debt in-curred, when the war ended, to purchase new stock and repair their plantations. This is the truth.—Co-tumbus Times. mbus Times.

The advertisement appears in the London Morning Post: "A lady is anxious to find a home for a young lady in whom she is deeply interes ted, as wife to a man with or without children. She has good health, good temper, cultivated mind, quiet and homely tastes, deep religious principles, devoted to children. A Plymouth Brother would be preferred. Any one who gets her will bless God for such a life-companion.

## MIDNIGHT DISPATCHES.

The Floods in the West-Great Dam-nge Alicady Done-The Rains Con-tinue;

CINCINNATI, Aug. 3.-A special from Chillicothe says the rains con-tinue and the flood gains strength. The canal broke below and swept 500 bushels wheat into the river. The people living on the bottom lands are moving their families, fearing inun-

dation at Ironton.

The Ohio is rising 5 inches per hour, also rising rapidly at Cincin-nati, where it has already invaded the lower stories of the houses on Water street, and bids fair to go as high as ever known before.

A special from New Albany says he trains on the Albany and Chicago R. R. were taken off to day at Gos-port; the track is covered from White river, a distance of three miles. A heavy force of mer are at work trying to prevent the large railroad bridge from floating away. The White river at this point is twelve feet higher than ever known. The trains south frem LaFayette go no farther than Crawfordsville. The track has been washed out in many places.
A special from Athens, Ohio ,say:

# The Carlist's Cause Losing Ground —The New Constitution—Religious Tolerance Granted.

London, Aug. 3.-A special dispatch from Madrid to the Times says the Alfonsist troops continue to be successful in their operations against the Carlists. Several important vic-tories have been gained at last. The Carlist forces are evidently approaching dissolution. Gen'l. Lizzarage with 300 Carlists is in the citadel at Seo De Urgel. The Spanish friends have risen owing to improved prospects. The prostrated constitution declares the State religion to be Roman Catholic. The nation is obliged itself to maintain its worship and its ministry but no one shall be molested on Spanish territory for their religous opinions or in the exercise of their respective worships as long as the respect due to christian morality is paid, nevertheless, other public ceremonies or demonstrations than those of State religion are prohibited Canonver committee declares the meaning of this to be that Protestants may have churches with open doors and celebrate worship inside, but there must be no manifestations on the street. It is believed that the Cortes will be summoned to meet soon when the proposed constitution will be submmitted thereto; consequently political agitation is recom

000 operatives of this city are idle and probably will be for 30 days although rumors prevail that work will be resumed in a week, great dissatisfac-tion among help and many are willing to work including a good part of the spinners who have heretofore acted almost as a unit. How long the mills will remain closed ti is impossible to say. manufacturers say they do not know themselves One thing that will influence them very much, they think it hard that operatives who are opposed to the reduction should be locked out. Many store keepers have given notice that if help can afford a vacation of 30 days they can afford to pay each for goods. No credit will be given until they get to work. Every mill is stopped with the exception of Stafford which

### will soon be closed. Bishop J. II. Eccleston.

DAVENPORT, IOWA, Aug. 3.—A letter from Rev. J. H. Eccleston, of Philadelphia, Bishop elect of this Episcopal Diocese, received by the Chairman of the Standing Committee, states he had delayed responding to the announcement of his election in May last, because of the protest against the manner of his election that had been sent here. He had care fully weighed the evidence on both sides, and sees no good ground for the charge made. He therefore leaves the final result with the Standing Committee throughout the country and the House of Bishops. With their decision he will be content.

## New Trial of the Beecher-Tilton

New York, Ang. 3 .- Mr. Morris, counsel of Tilton says that undoubtedly the new trial will be short as they propose now to try Beecher for adultery as he has been tried on several outside collateral matters. He says there is testimony of great importance which will materially alter he complexion of things and which will prove Beecher guilty. General Prior says three leading witness Tilton in the next trial will be Lee, the druggist, Henry C. Bowen, and Joseph Richards, Mrs. Tilton's brother.

### The Mexican Mixed Commission Dismissed.

WASHINGTON, Aug 3 .- The Mex can Mixed Commission, Bernadino and Francisco Garcia Mugurzo, ver sus the United States, was dismissed by the Umpire. This was a claim arising out of pillage and destruction of stock. and merchandize in the town of Bagdad Mexico, on Janus y 5th 1866. The town had been in the occupation of the French when on the morning in question, the attack was made and the town captured by a force organized on and starting from the United States, whereupon the town was pillaged. It was claim-ed by Mexico that the force was con • posed of United States soldiers; that the United States should have prevented the expedition from starting and not having done so, the United States was responsible. The Umpire holds that though the expedition was organized in American Territory, it was organized under the direction of General Escabeda, of the Mexican army and other com-missioned Mexican officers, and that there was no lack of due diligence on the part of the U. S. in preventing its starting, and that Mexico and not the United States, is responsible for the acts of the capturing force.
